...making sport work for you

TRAINING & DEVELOPMENT

Sportworks Training & Development provides a full range of professional development and training solutions in the sport sector. Our suite of training courses has been designed to inspire and motivate people looking to progress their career in sport, leisure or education.

Sport Development Officers, NGB Officers, Partnership Development Managers, School Sport Co-ordinators, Sports Coaches and people working at NVQ levels 2, 3 and 4 are just some of the individuals benefiting from Sportworks' programmes.

OUR APPROACH

Training Needs Analysis (TNA)

TNA helps to reveal where gaps occur between existing competencies and future goals. Our training consultants undertake both individual and organizational needs analyses to establish training requirements.

Bespoke Training

Training is designed around your specific requirements, guided by the TNA and delivered by professional, qualified tutors. Courses may take the form of one-day workshops, comprehensive programmes of learning, one-to-one coaching sessions, seminars or conferences - we adapt the training to fit the goal.

Funding and Qualifications

Working with partners in the industry, we can often secure funding to deliver one-day courses, National Vocational Qualifications and Apprenticeships.

Marketing & Promotion

Our carefully designed support package of marketing and promotional material inspires and engages workforces through their professional development.

WHY SPORTWORKS?

Industry Experience

Sportworks was recently involved in developing National Occupational Standards for Sports Development at levels 3, 4 and 5. We work closely with SkillsActive, the Sector Skills Council for Active Leisure and Learning and the lead sports organisations across the UK to ensure that we are at the cutting edge of policy and practice in sport, leadership and management training.

Quality Tuition

Our team of quality assured tutors have proven track records of achievement in their specialisms. By combining high level facilitation skills with personal experience, they empathise and connect readily with trainees. Individual profiles are available on request.

Versatility

We offer a broad range of training programmes with a readiness to extend this to meet your specific aims and requirements.

Monitoring & Evaluation

Customer satisfaction is critical to our continued success and we take the time to initiate feedback on all training experiences, helping us to continually improve our products.
